Summary

As a passionate software developer, I have a strong foundation in web development with expertise in HTML, CSS, and JavaScript. I'm proficient in C++ and experienced in building dynamic web applications using React. I am constantly excited by the evolving tech landscape and am committed to staying up-to-date with the latest industry trends. My goal is to craft efficient and user-friendly software solutions that have a positive impact. I am eager to collaborate on innovative projects and contribute my skills to make a difference in the world of technology.

Experience

Freelance
Fiverr

Mar 2023 - Present (10 months)
Seasoned with a year of dedicated freelancing, my journey in software development through remote work has been both enlightening and transformative. Through diverse projects and collaborations, I've refined my skills, crafting robust solutions while adapting to various client needs. This experience has not only bolstered my technical proficiency but also instilled in me adaptability, resilience, and an intuitive grasp of client interactions. Each project has contributed to my evolution as a versatile software developer, equipped to deliver excellence across a spectrum of challenges and client domains

Education

Bow Valley College
software development
